

## 💡 Interview Prep Journey in 1 Month – Resources That Helped Me! 💡

Over the past month, I dedicated time to prepare for interviews across core and advanced topics. Here are the resources that helped me stay focused and structured:

### 1. Data Structure and Algorithm(DSA):

- Practiced on GeeksforGeeks
- Solved Neetcode 150 questions
- Practiced 20 coding patterns to identify problem-solving techniques

### 2. Core Java, Multithreading & Collections:

- Followed @EngineeringDigest by Vipul Tyagi – great for clarity and real-world examples

### 3. System Design:

- Book: System Design Interview by Alex Xu
- YouTube: Gaurav Sen System Design Interviews
- Videos by Shrayansh Jain

### 4. Java 8 Features:

- Studied from GeeksforGeeks
- Practiced Java 8 coding questions from this blog: DevGenius blog – Java 8 Interview Q&A

### 5. Microservices Design:

- Designing Microservices by Arpit Bhayani

### 6. Spring Boot:

- Explored concepts from @EngineeringDigest by Vipul Tyagi
- Referred to official Spring documentation for deeper understanding

### 7. OOPs Concepts:

- Revisited core principles through videos by Shraddha(ApnaCollege)

### 8. All Interview Topics – Revision:

- Followed CodeDecode – covered all interview questions and answers across topics in a crisp and clear format
